### Spot™ Vision Screener

- For 6 month-old babies through to adults, and with limited mobility
- User friendly with touch screen display
- Successful capture 97% of time
- Easy to understand result reports
- WIFI connectivity

### PanOptic™ Ophthalmoscope

- Fast, easy entry into undilated pupils.
- 5x larger view of the fundus vs. standard ophthalmoscopes in an undilated eye.
- 25° field of view vs. the standard 5° field of view.

### 3.5V Coaxial Ophthalmoscope

- Halogen HPX® lamp for true tissue color
- Detect corneal abrasions with cobalt blue filter
- Polarizing filter virtually eliminates corneal reflection
- Red-free filter may be used with any pressure

### Pocket LED Ophthalmoscope

- SureColor™ LED lamp technology, provide the exact light for fundoscopic examination
- Durable pocket-style ophthalmoscope based on rigorous drop test vs other ophthalmoscopes
